This course sold out the previous three years. To be assured a spot in the 2017 program and your first choice of workshops, early registration is strongly advised.

Office Practice of
PRIMARY CARE MEDICINE 2017
March 13-17, 2017 Boston, MA

The renowned, comprehensive 2017 update for office-based primary care medicine
CME for internists, family physicians, medical specialists, NPs and PAs

New updates, guidelines, and best practices for:
• Hypertension, diabetes, coronary artery disease, lipid management
• Physical examinations and in-office procedures
• Treating obesity
• Using novel anticoagulants
• “Can’t miss” diagnoses
• Changing patient behaviors
• Cancer screening
• Opioids and chronic pain management
• Care coordination for high-risk patients
• Prevention and treatment of infectious diseases
• Office-based psychiatry
• The medical home and meaningful use
• Diagnosing and managing cognitive impairment

Choose from among 87 workshops and master clinician forums to tailor your learning experience to your practice needs

Updates • New Guidelines • Skills Development • Best Practices

Register at PrimaryCare.HMSCME.com
Office Practice of Primary Care Medicine is the renowned Harvard Medical School CME course for general internal medicine. It offers new and returning attendees the opportunity to stay current with annual advances across every major area of general medicine. Designed by and for clinicians, the curriculum focuses on state-of-the-art approaches to the clinical challenges you routinely face and the best ways to apply these approaches to your practice.

### Learning Objectives

Upon completion of this course, participants will be able to:

- Provide state-of-the-art care to patients with a wide range of general internal medicine problems
- Apply up-to-date screening recommendations for breast, colon, prostate, lung and cervical cancer
- Deliver state-of-the-art care to diabetic patients
- Determine appropriate opioid use for patients with chronic pain
- Provide appropriate end-of-life care
- Follow the *Choosing Wisely* recommendations from the ABIM
- Improve their physical exam, procedural and communication skills
- Manage patients with obesity
- Use antibiotics appropriately and wisely
- Evaluate patients with coronary heart disease
- Evaluate patients with dizziness and vertigo
- Diagnose and treat patients with concussions
- Office procedures, including joint injections, dermatology, and minor surgery procedures
- Achieving appropriate and effective pain management, including opioids for chronic pain
- Conducting discussions about end-of-life care
- Changing patient behaviors: motivational interviewing, cognitive behavioral therapy, nutritional counseling, and exercise prescription
- Complementary and integrative medicine, including medical marijuana
- Pre-op cardiac and pulmonary consultation
- Updates in pediatric and adolescent office practice
- Antibiotics in office practice
- Celiac disease: diagnosis and treatment
- Dizziness and vertigo: practical pointers
- Challenging rheumatology cases
- Chronic kidney disease management
- C. diff., UTIs, STDs, bronchitis, pneumonia
- Using genetic testing

### Who Should Attend

- Internists
- Family Physicians
- Medical Specialists
- Nurse Practitioners
- Physician Assistants
- Registered Nurses
- Other medical professionals who want to update their knowledge of general internal medicine

### 2017 Updates and Skills Development

- New hypertension, diabetes, and lipid guidelines
- Women's health updates, including menopause and osteoporosis
- Men's health, including prostate health and testosterone replacement therapy
- Treatment of concussions and head trauma
- New obesity medications
- Clinician wellness
- Diagnosing and treating cognitive impairment
- Coordinating care for high-risk patients
- Using the novel anticoagulants
- Hepatitis C treatment
- Treating depression and anxiety
- Creating a patient-centered medical home
- Assessing and treating addictions
- Lyme disease and other tick-borne illnesses
- Challenging cases of abdominal pain
- Physical examination of the eye, shoulder, hip, knee, elbow, hand, foot, ankle, and back
- Interpreting ECGs and chest x-rays
- Interpreting ECGs and chest x-rays
- Determining appropriate guideline use for patients with chronic pain
- Improve their physical exam, procedural and communication skills
- Manage patients with obesity
- Use antibiotics appropriately and wisely
- Evaluate patients with coronary heart disease
- Evaluate patients with dizziness and vertigo
- Diagnose and treat patients with concussions
- Office procedures, including joint injections, dermatology, and minor surgery procedures
- Achieving appropriate and effective pain management, including opioids for chronic pain
- Conducting discussions about end-of-life care
- Changing patient behaviors: motivational interviewing, cognitive behavioral therapy, nutritional counseling, and exercise prescription
- Complementary and integrative medicine, including medical marijuana
- Pre-op cardiac and pulmonary consultation
- Updates in pediatric and adolescent office practice
- Antibiotics in office practice
- Celiac disease: diagnosis and treatment
- Dizziness and vertigo: practical pointers
- Challenging rheumatology cases
- Chronic kidney disease management
- C. diff., UTIs, STDs, bronchitis, pneumonia
- Using genetic testing

### Practice Management

- How to stay clinically up to date from your office
- Meaningful use of EMRs to increase the efficiency and safety of medical ambulatory practice
- Special sessions on the medical home and care coordination for high-risk patients
- Patient information handouts that are relevant to your practice

**DISCLOSURE POLICY**

Harvard Medical School (HMS) adheres to all ACCME Essential Areas, Standards, and Policies. It is HMS’s policy that those who have influenced the content of a CME activity (e.g., planners, faculty, reviewers, and others) disclose all relevant financial relationships with commercial entities so that HMS may identify and resolve any conflicts of interest prior to the activity. These disclosures will be provided in the activity materials along with disclosure of any commercial support received for the activity. Additionally, faculty members have been instructed to disclose any limitations of data and unlabeled or investigational uses of products during their presentations.

**DISCLAIMER**

CME activities sponsored by Harvard Medical School are offered solely for educational purposes and do not constitute any form of certification of competency. Practitioners should always consult additional sources of information and exercise their best professional judgment before making clinical decisions of any kind.

Using Genetic Testing in Primary Care  
Joel B. Krier, MD, MMSc  [17]

Adjourn

ACCREDITATION
Harvard Medical School is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Harvard Medical School designates this live activity for a maximum of 40.25 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in this activity.

MOC STATEMENT
Successful completion of this CME activity enables the participant to earn up to 36.25 MOC points and 1.5 patient safety credits in the American Board of Internal Medicine’s (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider’s responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC points.

AMERICAN ACADEMY OF FAMILY PHYSICIANS
This Live activity, Office Practice of Primary Care Medicine 2017, with a beginning date of 03/13/2017, has been reviewed and is acceptable for up to 38.25 Prescribed credit(s) by the American Academy of Family Physicians. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

RISK MANAGEMENT
This activity meets the criteria of Massachusetts Board of Registration in Medicine for 15.75 hours of Risk Management Study. This includes 3.75 Credits of Opioid Education and Pain Management Training and 2.50 Credits of End-of-Life Care Studies. Please check your individual state licensing board requirements before claiming these credits.

CANADIAN ACCREDITATION
The Royal College of Physicians and Surgeons of Canada recognizes conferences and workshops held outside of Canada that are developed by a university, academy, hospital, specialty society or college as accredited group learning activities.

EUROPEAN ACCREDITATION
Through an agreement between the American Medical Association and the European Union of Medical Specialists, physicians may convert AMA PRA Category 1 Credit™ to an equivalent number of European CME Credits* (ECMECs*). Information on the process of converting AMA PRA Category 1 Credit™ to ECMECs* can be found at: www.eaccme.eu.

ABMS/ACGME Competencies
This course is designed to meet the following American Board of Medical Specialties and Accreditation Council of Graduate Medical Education competencies: Medical Knowledge, Interpersonal and Communication Skills, Practice-Based Learning and Improvement, Patient Care and Procedural Skills, and Professionalism.

IOM Competencies
This course is designed to meet the following Institute of Medicine competencies: Apply Quality Improvement, Utilize Informatics, Provide Patient-Centered Care, Employ Evidence-Based Practice, and Work in Interdisciplinary Teams.
Office Practice of Primary Care Medicine 2017

Your tuition includes morning yoga, all breakfasts, coffee and snack breaks, complimentary internet in the meeting and sleeping rooms, and a course reception on Tuesday, March 14.

*All attendees receive a flash drive that includes all of the course materials: a full-color syllabus, additional readings, and information for patients. If you also desire a printed copy of these materials, you can purchase them for a fee of $75.

REGISTRATION, PAYMENT, CONFIRMATION, and REFUND POLICY
Registrations for Harvard Medical School CME programs are made via our secure online registration system. To register for this course, please visit the course website.

At the end of the registration process, a $5 non-refundable processing fee will be added to your registration, and you will have the choice of paying by check or credit card (Visa, MasterCard, or American Express). If you are paying by check, the online registration system will provide you with instructions and a printable form for remitting your course fees by check. Postal, telephone, fax, and cash-payment registrations are not accepted. Fees shown in USD.

Upon receipt of your paid registration, an email confirmation from the HMS DCE office will be sent to you. Be sure to include an email address that you check frequently. Your email address is used for critical information, including registration confirmation, evaluation, and certificate. Refunds, less an administrative fee of $75, will be issued for all cancellations received two weeks prior to the start of the course. Refund requests must be received by postal mail, email, or fax. No refund will be issued should cancellation occur less than two weeks prior. “No shows” are subject to the full course fee and no refunds will be issued once the conference has started.

VENUE
Hyatt Regency Boston
One Avenue De Lafayette, Boston, MA 02111
Toll free within the U.S. at 888-421-1442 or outside the U.S. at 001 +402-592-6464

ACCOMMODATIONS
A limited number of rooms have been reserved at the Hyatt Regency Boston until February 19, 2017. When calling the hotel, be sure to specify that you are enrolled in this activity to receive a reduced room rate of $269 per person single/double occupancy. Hotel arrangements can also be made online before the above deadline by going to the course website and clicking on the course-specific link on the Venue page.

Please do not make non-refundable travel plans until you have received an email from our office confirming your paid registration.
